

Suzano Pulp and Paper announces production downtimes

São Paulo, February 1st, 2010. Suzano Pulp and Paper – (Bovespa ticker: SUZB5), informs its shareholders and the market that due to technical problems in Line 2 of the Mucuri Unit, the unit's production of market pulp suffered interruptions during January. The total production shortfall resulting from these unscheduled maintenance downtimes is estimated at 42,000 tons.
