Unscheduled downtime – Mucuri Unit

São Paulo, February 10th, 2012 - Suzano Papel e Celulose S.A. (Bovespa: SUZB5) hereby announces to its shareholders and the market in general that it conducted an unscheduled downtime in the recovery boiler of line 2 of the Mucuri Unit this January. Following the aforementioned downtime, the necessary repairs were made and production was resumed.

The factory is already operating at full capacity. The total production shortfall is estimated at 50,000 tons, which represents 2.6% of the Company's annual production capacity. Several different measures will be implemented throughout the year in order to achieve partial recovery of production.

São Paulo, February 10th, 2012.
