São Paulo, January 12, 2016 – SUZANO PAPEL E CELULOSE S.A. (“Suzano”) announces to its shareholders and the general market, complementing the Notice to the Market published on August 20, 2015, that the Department of Commerce of the United States of America (USA) published yesterday its decision to revise the antidumping duty applied to Suzano from 33.09% to 22.16%, valid exclusively for uncoated cut paper (folio and cut size) exported to the USA.

The new duty will come into force after a final decision of the case by the International Trade Commission (ITC), which is responsible for verifying whether the imports from countries under investigation are somehow adversely affecting the U.S. market and consequently if there is a need to impose antidumping measures on sales by such countries to the USA. The final decision from the ITC is expected in February 2016. We would like to reinforce that, regardless of the outcome, Suzano can request the reviews provided for by the applicable legislation.
