São Paulo, June 1, 2016 – SUZANO PAPEL E CELULOSE S.A. (“Suzano”) hereby announces to its shareholders and the market in general that a fire broke out at a storage area in the Suzano Unit on the night of May 31, 2016. With the support of the fire department and Suzano’s security team, the fire was controlled and eventually extinguished.

Two service providers suffered minor injuries, were promptly rescued and sent to the hospital in the city of Suzano. Both are doing well.

The pulp production unit and the paper machines did not suffer any damage. Losses from the fire are basically paper jumbo-rolls and the structure of the storage shed, all of which have insurance coverage.

Pulp production and the paper machines were shut down for safety reasons and production is being resumed as the area gets cleared.

Suzano has production and inventory flexibility in other facilities and it is working to minimize the impacts to the clients.
