São Paulo, June 6, 2016 – SUZANO PAPEL E CELULOSE S.A. (“Suzano”) hereby announces to its shareholders and the market in general that operation at Suzano Unit was normalized on June 4, 2016. Paper machines were shut down for safety reasons after a fire broke out at a storage area on the night of May 31, 2016. Pulp production was not impacted by this event.

We reiterate that the pulp production unit and the paper machines did not suffer any damage. Losses from the fire are basically paper jumbo-rolls and the structure of the storage shed, all of which have insurance coverage.
