**Re.: Request for clarification on press report**

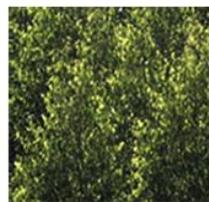

Dear Sirs,

In press report published by the O Estado de São Paulo newspaper on 02/16/2018 under the title “Suzano and Fibria discuss again possible merger to create a global giant”, it contains, among other information, that:

1. Suzano Papel e Celulose looked for the leader Fibria to discuss the possibility of asset combination or even to offer an acquisition;
2. The conversations initiated around three months ago. Despite not having any official negotiation, the controlling shareholders of both companies met seeking to discuss what would be the best model for the association of the two companies;
3. However, there is no agreed format for the potential deal;
4. The two companies consulted separately with BNDES about the partnership between them and did not find any objection.
5. The companies would have gotten in touch with banks to assist them in the negotiation of a potential deal.

We request clarification on the items above until 02/19/2018 with your confirmation or not, as well as other information deemed important.”

In compliance with the request above, the Company clarifies to its shareholders and to the market in general that:

The Company permanently evaluates opportunities that might create value to its shareholders and to its business and, in this sense, recently established very preliminary discussions with representatives of the controlling shareholders of Fibria S.A. on a potential deal involving the companies, without any defined format or structure.

Notwithstanding, there is no fact or event to be disclosed at this moment. The Company consulted with its controlling shareholders, who also confirmed that there is no fact or event to be disclosed at this moment.

In case an agreement is entered into involving the matter, the Company will disclose to the market, according to the applicable legislation.
