**São Paulo, May 09, 2019** – Suzano S.A. (“Company” or “Suzano”) (B3: SUZB3 / NYSE: SUZ), pursuant to the Brazilian Securities Commission’s (“CVM”) Instruction No. 358, dated January 3, 2002, as amended, and aligned with the best corporate governance practices, hereby informs its shareholders, investors and the market in general that the Company's market pulp production volume in 2019 is expected to reach between 9.0 and 9.4 million tons, implying then a gradual reduction of production during the year when compared to its productive capacity and historical volumes.

Suzano currently hold a volume of inventories significantly above its operational needs to provide the best levels of service to its customers. Hence, with the aforementioned level of production for 2019, it remains assured by the Company the full attendance of global demands for its products and the satisfaction of its clients.

The Company hereby reaffirms its commitment to transparency with its shareholders, investors and the market in general and will keep them all timely and properly informed of any subsequent decision that results in a significant change in the volume production for the year.
